Student Feedback

- 1) The instructors are all experienced professionals who are able to share with the class years of research findings and provide all with expert guidance not only in the specific field but also in academic thinking and writing. I am grateful for what BFSU ISS gave me -- a great opportunity to look at the world from a new angle while at the same time engaging in intensive discussion with both the professors and fellow students.——Chen Ming, BFSU, China (2018)
- 2) “The study schedule is relatively tight, and there are fewer students in each class, which makes it possible for the teacher to keep an eye on each student. It was really great! ”——Shen Yueyue, Beijing Information Science and Technology University, China (2019)
- 3) “I especially love professor’s enthusiastic attitude.”——Kim,Hankuk University of Foreign Studies, Korea (2019)
- 4) Professors were easy-going and they loved to have debates during the class. Also they encouraged us to share our ideas and to visit places around Beijing with local students.——Rastolle,Università degli studi di Torino,Italy (2018)
- 5) “I have learned other courses besides English, such as management and humanities, which have broadened my knowledge and broadened my horizon”——Hu Wan, Xizang MinzuUniversity,China (2019)
- 6) They were really helpful because they were about something I wanted to learn but didn't have the occasion to do so, since my university doesn't have courses about these subjects. The professors were excellent in explaining even the most difficult things. I think everyone in both courses fully understood every topic of the subject.——Ortu,University of Cagliari, Italy (2018)
